BUSINESS CONTINUITY SERVICES

Your Business, Your Mission, Secured!

Identifying and Addressing Risk & Resiliency for your technologies, to meet your business objectives.

Business Continuity Planning Services

Business Continuity Planning is used to inform and guide an organization on how to respond to a disruption. Robust planning ensures an organization's ability to absorb stress, recover critical functions, and thrive in less-than-optimal operating conditions.

Organizations must:

- Minimize downtime, protect their reputation, and sustain revenue streams in times of crisis.
- Create a solid Business Continuity Plan enhancing resilience and enabling swift recovery from unforeseen disruptions.

Fidus Cybersecurity Solutions will partner with your organization to create a Business Continuity Plan that meets your organizational goals. We accomplish this by utilizing the following services:

Fidus Business Continuity Program Assessment & Development

Built using a combination of leading standards from the NIST, ISO, and FFIEC, our scalable methodology and framework examines controls and sub-controls for up to five families.

Fidus provides:

- Your current and target state score, qualitative analysis, and actionable remediation tasks designed to mature your organization's business continuity plan immediately and in to the future.

Business Impact Analysis (BIA)

The purpose of a Business Impact Analysis (BIA) is to:

- Serve as the basis for Business Continuity Plan & Recovery steps.
- Identify criticality of processes and to prioritize restoration of business functions and critical activities.
- Identify critical functions, activities and business priorities and their impacts to the organization should there be an interruption.
- Map core/critical dependencies required to execute functions and activities.
- Assign Maximum Tolerable Downtime (MTD) for the function with an associated Recovery Time Objective (RTO).
- Document recovery strategies for all hazards.

Business Continuity Tabletop Exercise

Our Business Continuity Tabletop exercises will test your organizational response capabilities by:

- Identifing gaps and improving team coordination and training.
- Building confidence in strategies and ensuring successful response and recovery during a crisis.
